2023 ORLANDO

HEART WALK

NOVEMBER 4 | ORLANDO, FL

Team BBM Structural Engineers:

This year's Greater Orlando Heart Walk on November 4th was all about reclaiming our rhythm and celebrating! A celebration of survivors. A celebration of those we've lost to heart disease and stroke. And a celebration of the lifesaving advancements you help make possible by participating.

The American Heart Association, now more than ever, highlights the benefits of staying physically active and promoting a culture of health and well-being. With your help, we raised over \$1,030,000 for a world of longer, healthier lives.

Be sure to check out this year's 2023 Heart Walk highlight video!

By supporting the Greater Orlando Heart Walk, you are helping to ensure more cardiovascular research is funded, more hospitals administer the highest standards of care, and that fewer people suffer and die from heart disease and stroke. We can't thank you enough for sharing this special experience with us!

**YOUR
IMPACT**

Heart Walk.

THANK YOU FOR **YOUR SUPPORT**

The need for the work of the American Heart Association is beyond question and is made possible by the support of many community leaders!

This year we had 67 Greater Orlando companies supporting us and over 15,000 walkers! Your generosity and dedication to our mission, helps to make our work possible. THANK YOU!!

FUNDING FROM THE HEART

- Since 2023, 200 Infant CPR Kits were donated to local hospitals for NICU parents to learn hands-only CPR and 16 CPR in School Kits were donated to high schools in Orange, Osceola, and Seminole County so that students can learn hands-only CPR, helping to create a nation of lifesavers
- Through generous funding from our partners, we have directly supported more than 196,600 individuals annually in accessing healthier foods that promote cardiovascular health.
- We have also worked hard to establish blood pressure and food security screening, education, and referral systems in clinical and community settings.
- And, so much more thanks to you!

Thank you to our CPR sponsor, BBM Structural Engineers!

I WALK TO SAVE LIVES

TWO STEPS TO SAVE A LIFE

Hands-Only CPR has just two easy steps, performed in this order:

- 1 Call 911
- 2 Push hard & fast in the center of the chest
